Welcome to Yamba Nippers

The JAC, Age Managers and Yamba Surf Lifesaving Club would like to welcome all nipper families, old and new, to the 2024-25 season at Yamba.

This year we will continue teaching beach safety and surf skills to all our youngest members with the aim of developing the next generation of surf lifesavers.

The Nipper program's aim is to educate through age-appropriate activities which develop the skills required to be a lifesaver. Our focus is to create a fun and safe environment for all participants. Being a Nipper is more than just another sport. It is a pathway to being a member of one of the oldest volunteer organisations in Australia that is community respected and provides invaluable service. And while we are at it, we get the opportunity to create great relationships and memories for life.

Nippers will be held on Sunday mornings from 8:45am –10:30am See the calendar for full details. At times we may need to cancel or move Nippers based on surf conditions. Additionally, the Yamba SLSC conducts a program of training sessions throughout the season, which are available to all of our junior members.

This handbook provides a summary of all the information a Yamba nipper will need for the upcoming surf season.

If you have any questions or feedback during the season please contact your Age Managers in the first instance, or Committee members listed within this book.

- Yamba's gold and black skull caps must be worn whilst competing at all surf carnivals.

High Visibility Singlets

All nippers who participate in water activities will be given a Yamba Surf Club high visibility singlet free of charge.

- Children will not be allowed to participate in water events if they do not have their singlet on. You can sometimes find spares in the equipment room if you've forgotten one.

Swimwear is available for purchase most Sunday mornings at the clubhouse or from the club office during office hours.

Throughout the season there are multiple carnivals. Whilst we encourage all nippers to compete, carnival attendance is not compulsory. As a general rule the carnivals are as follows:

- Far North Coast Branch Championship Carnival- at a selected venue in the FNC Branch
- NSW Country Championships - hosted at a selected venue north of Newcastle or south of Wollongong

All nippers from U8 and up can compete at carnivals.

Yamba SLSC supplies all equipment needed for Sunday activities and Carnivals, including Nipper Boards. As we are a club funded by donations and sponsors, it is important we all take responsibility for the handling, care and returning of all equipment.

Boards

Boards are available for use by club members only. Boards can be used during Nippers Sunday activities and other times when the board shed is open (most patrolled weekends). If you use the boards, it is your responsibility to care for them and return them to the board shed after each use.

- Lift and carry boards, do not drag them across the sand
- Wash boards after use with fresh water, supplied at the board shed

All nippers are able to gain their respective Surf Ed award for their age group during the season, subject to a minimum number of attendances prior to December 31st. Listed below is a summary of the awards for each age group.

Resuscitation Certificate

Candidates for the Resuscitation Certificate course need to be 11 years or older. At Yamba Nippers, the Under 12 age group completes this training each season. This training will be conducted in the latter half of the season. Upon completion, Nippers are awarded Surf Life Saving accreditation in Resuscitation which becomes a part of their future skill set when training for the SRC, and toward joining the volunteer lifesaving service.

Surf Rescue Certificate - SRC

Candidates for this course need to be 13 years or older and are training to become patrolling members. U/14 Nippers train for their SRC on Sunday mornings during Oct/Nov and are assessed in early December. They are then allocated to a senior patrol team for the second half of the season.

Prior to commencement of the Nippers water-based activities, the Junior Preliminary Evaluation skills must be attained.
